

## **ERLC opposes the pro-abortion Women's Health Protection Act of 2022**

**Southern Baptists affirm that every life is worthy of protection, beginning with the unborn.** We believe life begins at conception and that abortion denies precious human lives both personhood and protection. Scripture is clear that every person is made in the image of God — including the unborn — and his knowledge of the unborn even precedes the creative act of conception (Jeremiah 1:5; Psalm 139:13).

**Southern Baptists affirm that every human is created in the image of God.** As stated in a 2021 resolution of the Southern Baptist Convention, the Bible “clearly and unequivocally affirms the sanctity of every human life made in God’s image (Genesis 1:27; 9:6), a truth to which Christians in every century have testified and are called to bear witness in every age and in every sphere of life; and Further, the Convention’s Baptist Faith & Message affirms that “children, from the moment of conception, are a blessing and heritage from the Lord” and calls us to “speak on behalf of the unborn and contend for the sanctity of all human life from conception to natural death.”

**The Women’s Health Protection Act of 2022 removes all restrictions and limits on abortion and allows for abortion up to the point of birth.** Additionally, this bill removes all pro-life protections at the federal and state levels and eliminates a state’s ability to legislate on abortion. This bill also fails to protect the consciences of American taxpayers and would force taxpayer dollars to pay for abortions.

**Abortion is not healthcare.** If human dignity is given to each person when created in the womb, then abortion is not only an assault on the image of God but also irreparable harm on a vulnerable life. We believe abortion denies precious human lives both personhood and protection, and therefore cannot be considered as healthcare.

**The ERLC strongly opposed the Women’s Health Protection Act of 2022.** This is one of the most pro-abortion bills to ever pass the U.S. House of Representatives, and we urge the Senate not to pass this harmful bill. It would put thousands of vulnerable, preborn lives at risk and steamroll over the the consciences of millions of Americans who do not wish to pay for or be compelled to provide abortions.
