The Psalm 139 Project¹ is our most tangible life initiative, designed to make people aware of the life-saving potential of ultrasound technology in crisis pregnancy situations and to provide pregnancy centers with ultrasound equipment² and training as they minister to abortion-vulnerable women.

Since the inception of the Psalm 139 Project, we have placed 30 machines, and we are already well on our way to our goal of placing 50 ultrasound machines by January 2023—the moment marking 50 years since the disastrous *Roe v. Wade* Supreme Court decision was handed down.

Studies show—and our own clinics' data proves—women in crisis pregnancy centers are far more likely to choose life when they see their baby on an ultrasound machine. That result is why we believe so deeply in the work of the Psalm 139 Project.

The motivation behind our life work comes from the gospel. In fact, one of the most effective ways we appeal to consciences is by explaining the *imago Dei*³ and the inherent worth that truth gives to every preborn child. We do this both here at home and abroad.

As we look ahead to 2022 and then to the 50 year anniversary of *Roe*,⁴ we are more committed than ever to standing for life. And that means, by God's grace, seeking to save preborn lives, caring for vulnerable mothers, and proclaiming in the public square the unswerving proclamation of the dignity of life found in God's Word.
