Why We Aim to Make Abortion Illegal and Unthinkable

BY ELIZABETH GRAHAM

A post-*Roe* world is good, but a post-abortion world is what we strive to achieve by reaching vulnerable women where they are in their time of need. Laws are critical, but they cannot change the fact that there will still be thousands of women who will face an unplanned pregnancy. Many of them will be afraid, unprepared, and unsure of what to do and where to turn. It is critical that we inspire, equip, and mobilize a new generation to defend the dignity of all human life.

MISS D'S STORY

When Miss D* was 6 years old, she was removed from her mother, and parental rights were terminated. From that time until she aged out of the foster care system at 18, she had 13 foster families. While in the foster care system, a family adopted her, and the father physically abused her. She was removed from that home, and the parental rights of the adoptive family were terminated. When D aged out of the foster care system, she

had no family, no support, and nowhere to go. She began using drugs and alcohol to numb the pain from her trauma. This led to her being trafficked, and she eventually became pregnant.

Against all odds, she carried her baby to term. DHS removed the baby from her care and terminated her parental rights because she was unable to care for her baby. Continuing down this dark path, she had a second unplanned pregnancy. This time, D was committed to having an abortion. She had no family, no protection, and could barely care for herself. Through a mutual friend, D met an advocate from a pro-life organization who began to walk alongside her in love, compassion, and empathy. The advocate told D she would foster her daughter, connect her to a church, and help her with resources to provide ongoing support through a continuum for care. Abortion became “unthinkable” in her eyes. Today, Baby E* is alive and ready for a forever family!
